

DUSTIN MAREO ISTANTO

085157125115 | dustin.mareo@gmail.com | <https://www.linkedin.com/in/ddmareo/> | linktr.ee/ddmareo

Bekasi, Indonesia

Information Technology student specializing in Artificial Intelligence with a knack in frontend development, UI/UX design, and machine learning. Achieved a Duolingo English Test score of 140/160, reflecting strong English proficiency. Experienced in writing articles, with a background in creative design and event management as a committee member for multiple events. Demonstrated leadership and teamwork skills as Vice Chairperson of President University Nippon Community for a year.

Projects

Genius-Clone - Cikarang, Indonesia

Jun 2024 - Jul 2024

Fullstack Developer

I successfully created a clone of the famous Genius.com website, a popular platform for storing song lyrics. I handled the frontend, utilizing HTML, CSS (Tailwind), and JavaScript (ReactJS). For the backend, I used Firebase to store all of the song attributes in the database.

- Created responsive web designs using HTML, TailwindCSS, and ReactJS.
- Implemented an AI feature using Google Generative AI (Gemini API).
- Made use of Firebase to store all of the song attributes in the database.

AkunImpact Outlook - Cikarang, Indonesia

Apr 2024

Fullstack Developer

AkunImpact Outlook is a financial analysis website developed for AkunImpact, leveraging recent transaction data. Collaborating with my group members, we built the site using Laravel. My role focused on implementing charts with Chart.js, including features to display Moving Averages and prediction sales for the next day, week, or month.

- Managed the project using GitHub for version control and collaboration.
- Focused on implementing interactive charts using Chart.js library.
- Collaborated with team members to integrate the charts into the Laravel-based website seamlessly.

Shazam-Clone - Cikarang, Indonesia

Dec 2023

Machine Learning Developer

My group and I developed a Shazam-inspired system, employing Deep Learning techniques, particularly the Siamese Neural Network, to identify song titles by analyzing audio snippets.

- Building and training the Siamese neural network.
- Creating a neural network using weights from this siamese network which optimizes the search.
- Finding & making our own dataset for training the model.

Image to PDF Converter - Cikarang, Indonesia

Nov 2023 - Dec 2023

Software Developer

A software or application that can convert almost all types of images into a single PDF file with additional features for customization. The project was created using Apache Netbeans IDE (Java).

- Created the GUI in Apache NetBeans to implement the design.
- Handled the code logics for the features.
- Utilized Figma to design the initial user interface for the software.

Education Level

Universitas Presiden - Cikarang, Indonesia

Aug 2022 - Nov 2025 (Expected)

Bachelor Degree in Communication, 3.74/4.00

- Student Ambassador of President University since February 2023
- Actively serves on the committee for various campus and organizational events

Organizational Experiences

President University Nippon Community (PUNICO) - Cikarang, Indonesia

Jul 2023 - Present

Vice Chairperson

President University Nippon Community (PUNICO), which is one of the many club/organizations in President University, is a community for those who love, interest, and passionate to Japanese cultures.

- Assisted the Chairperson in planning and executing meetings, events, and initiatives.
- Coordinated joint events or initiatives with other university clubs, organizations, and external partners.

- Assisted in managing the club's social media accounts and other communication channels.

PUNICO Matsuri 2023 - Cikarang, Indonesia

Jul 2023 - Nov 2023

Person in Charge of Event Organizer Division

PUNICO Matsuri, an annual event organized by President University Nippon Community (PUNICO), is one of the biggest Japanese festival events in Cikarang, with PUNICO Matsuri 2023 being a highlight of the year.

- Led the Event Organizer division in realizing the vision and goals for the event.
- Oversaw all aspects of the event during the festival, ensuring smooth operations and addressing any issues.
- Developed the overall event plan, including timelines and themes.

President University Leadership Program 2023 - Cikarang, Indonesia

Aug 2023

Creative Designer

President University Leadership Program (PULP) 2023, organized by President University Student Housing (PUSH), serves as a welcoming event for new students residing in the dormitory, providing them with leadership training and support.

- Created engaging Instagram content through Canva for the event.
- Designed professional and informative lanyards using Canva.
- Collaborated with the event team to ensure visual consistency and alignment with program goals.

Seoul Beats Korean Festival - Cikarang, Indonesia

Jun 2024

Liaison Officer

The Seoul Beats Korean Festival, organized by President University, is a vibrant celebration of Korean culture, featuring lively music, dance, and cuisine. Held on June 7, 2024, the event includes educational booths, career insights, student exchange opportunities, and a special guest lecture by Shin Tae Yong, the coach of the Indonesian National Football Team. Highlights include BTS Noraebang, K-pop dance covers, Hanbok costumes, and delicious Korean food, making it an unforgettable experience for all attendees.

- Personally welcomed and accompanied VIP guests throughout the event, ensuring a positive and engaging experience.
- Liaised between event organizers and VIP guests, ensuring clear communication and coordination.
- Handled last-minute issues and emergencies efficiently, maintaining excellent service and professionalism.
